Mario Todorov

Senior Software Engineer

Senior Software Engineer with 4.5 years of experience delivering full-stack web applications. Designed, developed, and maintained scalable web solutions using JavaScript (React/Vue), Python (Django), and AWS. Skilled in both front-end and back-end development, with a passion for building user-friendly and efficient web experiences. Proven track record of independent work and collaboration in a remote environment. Eager to learn new technologies and contribute to innovative projects using Rust + WASM or Go.
